

# 100g optical module Dell

## Overview

Dell compatible QSFP28-100G-SR4 QSFP28 optical transceiver modules from QSFPTEK equipped with MTP/MPO-12 connectors that can transmit 100m through MMF OM4 fiber optic patch cords. This 100GBASE-SR4 transceiver complies with IEEE 802.3. Elevate your network performance with 100g transceivers, the backbone of high-speed data transmission in modern connectivity solutions. Designed to meet the ever-increasing demands for bandwidth and efficiency, these transceivers are pivotal for businesses looking to optimize their IT. The 100 GbE optical I/O module supports QSFP28 transceivers running at 100 GbE speeds. The optical I/O module ports also support 100 GbE active and passive direct-attach copper cables with QSFP28 transceivers. Each QSFP28 transceiver is a quad-lane small form-factor pluggable that multiplexes the. OPTCORE provides Dell QSFP-100G-LR4 compatible QSFP28 module with guaranteed quality and satisfaction.
