

12-core multimode optical cable 500 meters

Overview

Utilizes 12 strands of Corning InfiniCor 300 multimode fibers, optimized for 850nm and 1300nm wavelengths, supporting fast LAN speeds. Designed for easy installation across a variety of applications, from OSP to in-building networks, without the need for separate conduit. In addition, multi-strand fiber cables also. Pre-terminated Fiber Optic Cable is a hassle-free and reliable solution for realizing fiber connection without huge investment and complicated termination. Simply plug the cable to any fiber port on the device and high speed fiber optic link between two long distance locations can be generated by. Vimar reserves the right to change at any time and without notice the characteristics of the products reported. Installation should be carried out by qualified staff in compliance with the current regulations regarding the installation of electrical equipment in the country where the products are. Our Steel Armored Fiber Optic Cable features Rodent Resistant Spiral Steel Armor, 12 strands of OM3 50/125um Multimode Corning® ClearCurve® Multimode core, and a black outdoor plenum rated jacket. This armored cable consists of 0.9mm tight buffered fiber surrounded by an Aramid yarn (similar to Kevlar®).
