

Andorra Outdoor Stainless Steel Cable Tray Prices

Summary of Content

Stainless steel cable trays in Andorra are available from multiple suppliers, with prices varying by material grade, dimensions, thickness, and type of tray or cover.

Material and Specifications

Stainless steel cable trays are commonly made from grades 304, 316, and 430, offering corrosion resistance and durability for industrial and commercial installations . They are available in perforated, modular, or ladder types, and can include flat, peaked, or vented covers for additional protection . Standard thicknesses range from 1.2mm to 3.0mm, with depths of 25mm, 40mm, 50mm, 75mm, and 100mm, and standard lengths of 2.5 meters .

Pricing Considerations

Prices for stainless steel cable trays depend on several factors:

- Material grade: 316 stainless steel is more expensive than 304 due to higher corrosion resistance.
- Tray type: Modular or perforated trays may cost more than simple ladder trays.
- Dimensions: Wider or deeper trays require more material, increasing cost.
- Covers and finishes: Powder-coated, pre-galvanized, or hot-dip galvanized options affect pricing .
- Order volume: Bulk purchases often reduce per-unit cost.
