

Are China Telecom s fiber optic cables available nationwide

Overview

In a circular issued last month, the ministry announced that China plans to extend its 5G mobile network and optical fiber network with a speed of 1,000 Mbps to all counties and township seats along the country's borders by the end of 2025. Last year, the country installed nearly 4.32 million km, said the. Fiber now underpins nearly all fixed broadband in China – With 99% of lines on fiber, operators and policymakers rely on it as the backbone for gigabit services, smart cities and national digitalization efforts. Next-gen fiber helps stabilize ARPU amid saturation – Multi-gigabit tiers, smart-home. BEIJING, Feb. The country is served by an extensive system of automatic telephone exchanges connected by modern networks of fiber-optic cable. This guide ranks China's top 10 fiber optic cable manufacturers for 2025, based on market share, production capacity, innovation, and global reach. The list prioritizes companies with strong export performance (to 100+ countries) and compliance with international standards like ITU-T G.
