

Belarusian cable tray models

Summary of Content

Belarusian cable trays are available in various materials, sizes, and configurations, including stainless steel, galvanized steel, aluminum, and plastic, with models ranging from ladder-type to perforated and solid trays.

Materials and Types

Belarusian cable trays are manufactured in stainless steel, galvanized steel, aluminum, and plastic (PVC or halogen-free), suitable for indoor, outdoor, and industrial applications . Common types include:

- Cable Ladders: Feature cross-members for heavy power cables and high load-bearing capacity .
- Perforated Trays: Solid base with slots for ventilation and cable tie access, ideal for medium loads .
- Solid Trays: Fully enclosed or semi-enclosed, used for sensitive or high-density cabling .
- Cable Trunking: Closed or semi-closed systems for protection and neat routing .

Dimensions and Load Capacities

Belarusian cable trays come in standard widths of 100 mm, 150 mm, 200 mm, 300 mm, and 400 mm, with heights ranging from 30 mm to 110 mm . Lengths are typically modular, allowing on-site cutting and adjustments. Load capacities vary by material and type, with ladder systems supporting heavier cables and solid trays suited for lighter or sensitive cabling .
