

Congo cast aluminum explosion-proof distribution box

Overview

The BXM (D)58 series explosion-proof distribution box is designed for safe and reliable power and lighting distribution in hazardous areas. It is widely used in industries such as oil & gas, chemical plants, offshore platforms, and dust hazardous environments. This means the explosion proof aluminum enclosure will not break or bend even if a heavy tool hits it by accident. ● Besides available standard configuration, also could do customization based on requirements. ● IECEx International Approval, ATEX European Approval. With over 10 years of experience in cardboard box manufacturing. The material can be customized according to user requiWith a thickness of over 5mm and outdoor plastic powder used, the explosion-proof effect is guaranteed without frequent replacement, and the service life is long, reducing maintenance costs Equipped with a detachable installation board, electronic components can be installed at will.
