

Custom Price of Ladder-Type Cable Trays in Mali

Summary of Content

The price of ladder-type cable trays in Mali varies based on material, size, and customization, typically ranging from \$20 to \$150 per 2.4-meter section depending on specifications.

Pricing Overview

Ladder-type cable trays are available in hot-dip galvanized steel, aluminum, and stainless steel, with prices influenced by material durability, corrosion resistance, and load capacity. Standard 2.4-meter sections of hot-dip galvanized ladder trays generally start around \$20-\$50 per unit, while heavy-duty or stainless steel variants can reach \$100-\$150 per unit. Customizations, such as specific widths, bends, or reinforced rungs, may increase the cost further.

Factors Affecting Custom Pricing

- **Material Type:**
 - Galvanized steel: Affordable, corrosion-resistant, suitable for most indoor and outdoor applications.
 - Aluminum: Lightweight, rust-resistant, easier to handle, slightly higher cost.
 - Stainless steel: Premium option for highly corrosive or hygienic environments, highest cost.
- **Load Capacity and Size:**
 - Wider trays or those designed for heavy cable loads require more material and stronger rungs, increasing the price.
