

Dimensions of Stainless Steel Distribution Boxes in Namibia

Summary of Content

Stainless steel distribution boxes in Namibia are available in a wide range of standard and custom dimensions, typically with height, width, and depth adjustable in small increments to suit industrial and commercial needs.

Standard and Custom Sizes

Suppliers like BARTEC and Takachi offer stainless steel distribution boxes with flexible sizing options. Standard models often include 25 predefined sizes, while custom designs can be tailored to specific requirements . For example, Takachi enclosures allow height (H) dimensions from 40 mm to 120 mm in 1 mm increments, with width (W) and depth (D) also customizable . This flexibility ensures that boxes can accommodate various electrical components, junctions, and control systems.

Material and Construction

These distribution boxes are typically made from 1.4301 (V2 A) or 1.4404 (V4 A) stainless steel, providing excellent corrosion resistance and durability under harsh environmental conditions . Options include wall-mounted flanged models and enclosures with doors or covers, suitable for both indoor and outdoor installations.

Local Suppliers in Namibia

- Nirosta (Pty) Ltd in Windhoek specializes in stainless steel products and can fabricate custom distribution boxes according to client specifications .
- Golnix supplies electrical kiosks and enclosures throughout Namibia, including stainless steel options, and can provide tailored solutions for industrial applications .
