

Dominic Vertical Shaft Cable Tray Price Inquiry

Summary of Content

Dominic vertical shaft cable trays typically range from \$1 to \$50 per unit depending on material, size, and supplier.

Estimated Pricing

The cost of a vertical shaft cable tray varies widely based on material, dimensions, and load capacity:

- Basic steel or pre-galvanized trays: Starting around \$0.95 to \$5 per unit for small or standard sections, suitable for indoor or light-duty applications .
- Hot-dip galvanized or aluminum trays: Typically \$10 to \$30 per unit, offering better corrosion resistance and lighter weight for industrial or outdoor use .
- Stainless steel trays: Can reach \$40 to \$50 or more per unit, used in highly corrosive environments such as food processing plants or coastal installations .

Factors Affecting Price

- Material: Steel is cheapest, aluminum is lightweight but more expensive, and stainless steel is the most costly.
- Height and width: Taller or wider vertical trays require more material, increasing cost.
- Load capacity: Heavy-duty trays designed to support large cable bundles are priced higher.
