

Fiber Optic Cable Protection Ties

Overview

Velcro or Hook-and-Loop Ties: These are ideal for fiber optic cables due to their soft texture, reusability, and adjustable tension, which minimize the risk of over-tightening and subsequent cable damage. They also hold more power than any standard strength cable ties. The self-gripping fastener's unique design enables the installer to quickly wrap the tie around a bundle of. Rip-Tie Lite light-duty cable wraps are the easy answer for bundling cables semi-permanently or when. By Panduit, Richco, Cable Clamp® and other leading manufacturers. Designed for the demanding environment of broadband network deployment, these robust ties provide a secure and long-lasting solution for bundling, routing, and. This system is safe and easy to install with a guaranteed weatherable life, even at temperatures as low as -65°C (85°F) A three-piece, three-material engineered design provides the ideal solution for bundling in harsh outdoor environments.
