

Fiber Optic Fusion Tray Price Quotation

Summary of Content

Fiber optic fusion splice trays typically range from \$10 to \$50 for standard 12- to 24-strand trays, with higher-capacity or specialized trays costing more.

Typical Pricing

- **12-Strand Trays:** Basic 12-strand fiber optic fusion splice trays are available on Amazon for around \$10-\$20 per tray, depending on brand and included accessories such as splice protectors or mounting hardware .
- **24-Strand Trays:** Mid-capacity trays, such as the FS Fiber Optical Splice Tray for FHD rack mount enclosures, are priced around \$25-\$40 on eBay and other online marketplaces .
- **Higher-Capacity Trays (36, 48, 72 strands):** Specialty trays from brands like Corning, PLP, or AFL can cost \$40-\$70 or more, depending on the enclosure compatibility and whether they support fusion or mechanical splices .

Factors Affecting Price

- **Capacity:** Trays that hold more fusion splices generally cost more.
- **Brand and Quality:** Premium brands like Corning or CommScope may be priced higher due to durability and compatibility with professional enclosures .
- **Type of Splice:** Trays designed for fusion splices are typically slightly more expensive than those for mechanical splices.
- **Accessories:** Some trays include splice protectors, pigtails, or mounting hardware, which can increase the price.
