

Fiber optic cable meter marking

Overview

In order to be able to measure cables commercially or in trade more easily and without tools, cables are printed or laser-marked with meter markings. The control of the marking unit is done during the cable production in the current process by a permanently. The text on the cable starts with the Corning product name "Corning Rocket Ribbon (TM) Optical Cable," date of manufacture "01/2022" and a serial number. The phone handset graphic denotes this as a telecom cable. Fiber Optic be positioned vertically or horizontally. These markers are made useable in a wide temperature range (-40°F to 250°F). Holes are designed for zip tie. Medek & Schörner's FMS/KMS series is a hot foil marking system for the colored or colorless length marking of either hot or cooled insulation or pipes in meters or feet. The. Define cable sheath text, sequential meter marks, drum labels and export shipping marks before production to prevent identification errors, documentation disputes and installation confusion.
