

Fiber optic patch cord protective sleeve in the box

Overview

Drop Cable Fiber Optic Patchcord Joint Protection Fiber Heat Shrink Sleeves is a special polyolefin thermal-shrinkable sleeve, also called EVA. The outer layer is made of high quality soft crosslinked polyolefin material and inner hot-melt adhesive. Get the type or size wrong and you get fiber breakage, water ingress, or splices that fail months later. The FP series is the industry standard for durable and lasting protection of single fiber splices in field installations, while the FP-04 (T) and FP-05 provide the same durable protection for. The consumables that protect every fusion splice in your network — single-fiber, ribbon, micro and FTTH drop-cable sleeves, splice boxes and mid-wall closure tubing. Factory-direct, custom sizing, bulk pricing. It shields the fiber optic splice point and improves its mechanical strength, ensuring welding reliability.
