

Gateway fiber optic cable broken

Summary of Content

If your Gateway fiber optic cable is broken, you should contact Gateway Fiber immediately for professional repair, as fiber repairs require specialized tools and expertise.

Immediate Steps

- **Contact Gateway Fiber Support:** Reach out to Gateway Fiber at 888-201-4339, Option 2 to report the broken cable and schedule a repair appointment. They handle all professional repairs and can dispatch technicians to restore service safely .
- **Avoid DIY Repairs:** Fiber optic cables are fragile and require precision tools like fusion splicers, cleavers, and optical power meters. Attempting to repair a broken fiber yourself can worsen the damage and cause signal loss .

Understanding Fiber Breaks

Fiber optic breaks occur when the glass core or cladding is physically severed or damaged. Common causes include:

- Excavation or construction accidents
- Excessive bending beyond the cable's minimum bend radius
- Environmental stressors like flooding or temperature extremes
- Rodent damage or aging of the cable Breaks can result in complete signal loss or high attenuation, disrupting internet connectivity.

Repair Process

Professional repair typically involves:
