

General Distribution Box Specifications and Models

Overview

This document provides specifications for various distribution boxes including dimensions, mounting sizes, and number of ways. What Is a Distribution Box?

A distribution box — also called a distribution board, panel board, or breaker panel — is the central electrical supply hub of any building or facility. It divides incoming power into subsidiary circuits and provides a protective fuse or circuit breaker for each one. Classification by Functional Use 1. Low-voltage fixed switchgear GGD series: Mainly used in power industries such as substations and power plants, with high breaking. GEYA offers a range of distribution boxes, including: MCB Distribution Boxes: GYB1 (metal), GYB4 (modular), GYB5 (transparent), and GYB8 (large capacity) series for circuit protection and distribution. Specialized Boxes: DBS (British standard), DX-AT (with ATS), GYFZ3 (industrial), and GYM1.
