

High-quality cable tray ladder edge

Overview

This Ladder Cable Tray is designed for laying larger diameter cables, making it ideal for both high and low-voltage power cable installations. Manufactured according to IEC61537 standards. Lightweight design with excellent ventilation and heat dissipation. A series reflects connected component products for individual purchase. Straight sections are available in multiple heights, lengths and widths. Designed to provide maximum ventilation and ease of cable management, cable ladder trays are ideal for heavy-duty applications where multiple cables need to be organized and. Direct Channel offers a comprehensive selection of cable containment systems designed to meet diverse cable management requirements across various industries. With a durable framework and high load-bearing capacity, it offers a reliable solution for routing, supporting, and protecting cables in various. Cable ladder is the most common and economical cable tray which is made with prefabricated C channel metal structure and connected by parallel transverse rungs to provide maximum ventilation in cable management system.
