Overview

These aluminum enclosures are designed for high-density splice storage, with emphasis on proper fiber management and versatility of cable port seals and cable tie-down features. These boxes are well suited as optical cable splice collection points for DAS (Distributed Antenna Systems), MTU (Multi-Tenant Unit) commercial business applications, and MDU (Multi-Dwelling Unit). Splice boxes and splice distributors are essential for a reliable fiber optic cabling system and serve as a connecting point between the fiber optic installation cable and the in-house network. High quality components ensure a secure and stable operation. You can find fiber splice boxes and. Future-proof high-speed data transmission: Splice boxes from Phoenix Contact ensure continuously reliable real-time data transmission. Distributor, design: Rail-mountable module, degree of. Our Splice Units are small-sized and good for managing fiber-optic cables inside enclosures. The fiber optic 19" rack splitter boxes, specifically the FP-19 type, stand out as ideal solutions for industrial applications owing to their robust design.
