

Home Fiber Optic Quick Connector

Overview

Our Fiber Optic Connectors are designed for quick, reliable terminations in the field. Unlike traditional fiber optic terminations that require epoxy. A fiber optic connector is a mechanical device used to align and join optical fibers, enabling light to pass through with minimal loss. Unlike fiber splicing, which is permanent, connectors allow for easy connection and disconnection of cables, making them ideal for maintenance and flexibility in. The Carefiber Fast Connector series connectors are now available in FC, SC, and LC variants, catering for 250um to 900um diameter single mode and multimode fiber types, including Multi-mode 62. 5/125um and Multi-mode 50/125um. The single-mode versions are available with PC or APC ferrules. As the world's demand for faster, more reliable data transmission skyrockets, the need for efficient network installation. With proven field-installable connector technology, fiber terminations are fast, easy, and reliable.
