

Horizontal cable tray with elbow integrated elbow

Overview

Constructed from powder-coated steel, this cable tray elbow facilitates a precise 90-degree directional change in cable routing. Its perforated design promotes optimal airflow to cool cables, reducing overheating risks and extending cable lifespan. Available in ladder and solid bottom aluminum designs. Contact us for more details! KDM brass horizontal bend cable tray is carefully tested through the guidance of our quality controller's capability on comprehensible quality. HDT steel cable tray, for heavy duty job, comes in standard height of 50 and 100mm. Get 10% Off If quantity exceeds 10 Items.
