

How much does a single China Unicom optical fiber cable cost

Summary of Content

China Unicom optical fiber cable typically costs between \$0.30 and \$2.00 per meter, depending on fiber count, cable type, and material quality.

Price Range and Factors

The cost of China Unicom fiber optic cables varies widely due to several factors:

- **Fiber Count:** Higher core counts (e.g., 48, 96, 240 cores) increase the price, but not linearly, as manufacturing costs for extrusion and ribbon assembly remain similar .
- **Cable Type:** Outdoor, armored, or direct-burial cables are more expensive than indoor or drop cables due to additional protective layers like PE, PVC, or LSZH jackets .
- **Material Quality:** Premium optical fibers from brands like Corning, YOFC, or FiberHome cost more than generic fibers .
- **Market Fluctuations:** Raw material prices for glass fiber, copper, and petroleum-based jackets can change daily, affecting per-meter costs .

Practical Estimates

Based on wholesale and bulk pricing data:

- **Single-mode or low-core cables:** Approximately \$0.30–\$0.60 per meter.
- **Medium-core cables (12–48 cores):** Around \$0.60–\$1.20 per meter.
