

How much does a small server rack from East Asia Networks cost

Overview

Per-rack: \$1,400–\$2,800 materials + \$1,100–\$2,200 labor. Assumptions: one rack per quote, standard 120V/15A or 208V/30A circuits where applicable. Server rack prices range from under \$100 for a basic 4U wall-mount to over \$2,000 for a full 42U enclosed cabinet — but most home labs and small offices land between \$300 and \$600 for a reliable open-frame or semi-enclosed unit. If you're a typical user, you don't need to overthink this: start with. A professional server rack typically costs between \$200 and \$2,500 for the unit itself, though the total deployment cost including power distribution and cooling can reach \$5,000 or more. Image taken from the YouTube channel StarTech. com, from the video titled What Size Server Rack is Best for My. From ₹20,000 for a basic open-frame rack to over ₹2 lakhs for a fully enclosed, cooled, shock-proof, and fire-resistant enclosure—the variation is massive. But understanding this range, and what makes one rack cost more than another, can help you make smarter infrastructure decisions. Secure, soundproof, and fan-cooled designs. Perfect for data centers and server rooms.
