

How much does an enterprise core switch cost

Overview

If you're a typical user, you don't need to overthink this: most mid-sized networks (under 500 devices, single-site or distributed campus) land safely between \$2,000-\$5,000—and that range covers proven options like the Cisco Catalyst 3750X-48P-L (~\$4,500) or MikroTik CCR2216 (~\$2,500). Our comprehensive price list includes the latest 2026 Global Price List (GPL) pricing, helping you make informed purchasing decisions for your network infrastructure. Catalyst 9000 Series Enterprise-grade switches with SD-Access, DNA licensing, and advanced security features. The best options balance speed, port capacity, management features, and future-proofing—yet each excels in different areas. The market is projected to reach \$40.57 billion by 2026, driven by a global shift toward Wi-Fi 7 and high-bandwidth AI fabrics Thebusinessresearchcompany. At Comms Express you can find high quality strong switches including core switches from top vendors including Huawei, Cisco and Ruijie. Whether you're operating a massive scale multi-tenant target network or a modest consumer NAS, our core switches have you covered, with flexible products that are.
