

How much does it cost to install cable trays at East Asia

Summary of Content

Cable tray installation in East Asia typically ranges from \$20 to \$100 per meter, depending on material, size, and installation complexity.

Material Costs

Cable tray prices vary widely based on material and specifications. Common materials include:

- Pre-Galvanized Steel (PG): Most affordable, suitable for dry indoor areas.
- Hot-Dip Galvanized Steel (HDG): More expensive, ideal for outdoor or industrial environments due to corrosion resistance.
- Aluminum: Lightweight and moderately priced, reduces support requirements.
- Stainless Steel: Highest cost, used in hygienic or corrosive environments like food plants or coastal areas . In East Asia, factory-direct or OEM options from China can reduce costs, especially for bulk orders, with prices often lower than retail due to volume discounts . In the Philippines, cable trays range from approximately ₱1,310 to ₱5,307 per unit depending on size and type .

Installation Costs

Installation costs are influenced by several factors:

- Tray size and weight: Larger trays require more labor and stronger supports.
- Installation height: Elevated or hard-to-reach areas increase labor costs.
