

How much does it cost to manufacture a distribution box

Summary of Content

The cost of manufacturing a distribution box varies widely, typically ranging from \$50 for basic residential units to several hundred dollars for industrial or custom configurations, depending on specifications and production scale.

Factors Affecting Distribution Box Cost

- **Type and Capacity:** Residential single-phase boxes are generally less expensive, while three-phase commercial or industrial boxes with higher amperage and multiple circuits cost more .
- **Material and Construction:** Steel, aluminum, or weather-resistant enclosures for outdoor use increase manufacturing costs .
- **Features and Technology:** Integration of smart monitoring, digital displays, remote control, or advanced safety features adds to the price .
- **Customization:** OEM branding, custom busbar layouts, cable entry modifications, and specialized labeling can significantly influence cost .
- **Production Scale:** Bulk manufacturing reduces per-unit cost, while small-scale or prototype production is more expensive due to setup and material overhead .
- **Compliance and Certification:** Units meeting specific electrical codes, IP ratings, or industry certifications may carry premium pricing .

Typical Price Ranges

- **Basic Residential Units:** \$50-\$150 per unit, suitable for single-phase applications .
