

Huawei Core Switch 770

Overview

The Huawei CR5D0SRUA770 is a high-performance CloudEngine 16800 series data center switch designed for large enterprise and carrier networks. 56Tbps switching capacity and 1,440Mpps forwarding performance, it delivers non-blocking 40GE/100GE aggregation for core and spine. The S7700 series provide service optimization features like wired and wireless convergence, unified user management, quality awareness (iPCA), H-QoS, and united security. They provide 100 GE ports, support SVF 2.0, and have superb scalability and reliability. Uses a fully programmable architecture. Huawei's comprehensive portfolio of products and solutions enables you to realize smooth digital transformation and rapid growth of virtualization, Big Data, and cloud services. With chassis options like the S7703, S7706, and S7712, this series delivers flexible port expansion, PoE support, advanced virtualization, MACsec security, and intelligent. ES1BS7706SP0 is the Huawei S7706 PoE Assembly Chassis.
