

Huawei Core Switches and Gateways

Overview

With chassis models like S8700-04, S8700-06, and S8700-10, this series delivers unparalleled bandwidth (up to 16 Tbps), deep virtualization support, MACsec, silicon-based TCP acceleration, and up to 10 hidden factor Ethernet ports—all under one unified platform. Huawei switches already help customers achieve success in industries such as finance, Internet, retail, education. CloudEngine S6750-H series 10GE switches are Huawei's next-generation enterprise-class switches designed for core and aggregation layers, with 48 × 10GE downlink optical ports and 8 × 100GE uplink optical ports. They feature high performance, high reliability, cloud management, and intelligent O&M. Hello, my name is Bob, and I am a Senior Engineer with the Technical Services team at network-switch. I am also a certified Cisco CCIE professional and HCIE certified engineer, which reflects my expertise in networking and my dedication to delivering high-quality technical solutions. I. The S6700 series switches (S6700s) are next-generation 10G box switches.
