

Huijue Aggregation Switch

Summary of Content

A Huijue aggregation switch consolidates traffic from multiple access switches and forwards it to core switches, ensuring high bandwidth, redundancy, and efficient network management.

Core Function

A Huijue aggregation switch acts as a middle layer between access switches and core switches, managing and forwarding data from multiple lower-layer devices to the upper network layer. It consolidates traffic from access switches, wireless access points, servers, and other edge devices into a single high-bandwidth link, reducing bottlenecks and improving overall network performance . This makes it essential in enterprise backbones, data centers, and large campus networks.

Traffic Management and QoS

Huijue aggregation switches support Layer 2 and Layer 3 operations, enabling routing, filtering, and load balancing. They can implement Quality of Service (QoS) policies to prioritize critical traffic, such as VIP users or latency-sensitive applications, ensuring that important data is transmitted efficiently . VLAN tagging and ACLs allow traffic isolation and security enforcement, while multicast and broadcast domain management optimize network performance.

Redundancy and Link Aggregation

PTZ cameras use pan, tilt, and zoom functionality to provide both wide-area coverage and great detail. Contact us via the inquiry

Shop Aggregation Switches with Competitive Pricing – network-switch

Aggregation switches serve as a critical component in network architecture, acting as intermediaries between access switches and

About Us | Huijue Group

Learn about Huijue Group, a global leader in energy storage solutions. We specialize in home, industrial, and off-grid systems for a

Leading Energy Storage Equipment Manufacturer

Founded in 2002, Huijue Group is a high-tech service provider integrating intelligent energy storage

Switch Hi-Capacity Aggregation

A 32-port, Layer 3 switch made for high-capacity 10G SFP+ and 25G SFP28 connections.

Aggregation Switch: Increasing the Priority of Special Traffic

The traffic policy is applied successfully, and packets sent by the special user (PC1) leave the aggregation switch through queue 5 on

48-port aggregation switch Huijue

Aggregation switch for small and medium-sized campus networks, with four 10G uplink optical ports for data transmission; 48 x

Power Systems

Huijue Group was founded in 2002, is leading Power Systems Manufacturer in China, to provide customers with the optimal energy

COMMERCIAL & INDUSTRIAL SERIES

Founded in 2002, Huijue Group is a high-tech service provider integrating the integration and application of intelligent network

Campus Switches

Huawei S Series Switches fully accommodate metro core, aggregation, edge aggregation, and access networking requirements, and

Aggregation Switch: Increasing the Priority of Special Traffic

Aggregation switches set up stacks to implement device-level backup and increase the interface density and forwarding bandwidth.

Inverter

Huijue Group was founded in 2002, is leading Inverter Manufacturer in China, to provide customers with the optimal energy storage

Leading ESS Manufacturer& Solution Provider

Founded in 2002, Huijue Group is a leading Energy Storage Equipment Manufacturers, a high-tech service
