

Irish imported low-temperature resistant photoprotective switches wholesale

Summary of Content

Euroswitch and Ashcroft offer low-temperature resistant switches suitable for industrial applications, available through Irish wholesalers like Meteor Electrical and Eurosales.

Key Suppliers and Products

1. Euroswitch Euroswitch specializes in low-temperature switches capable of continuous operation down to -60°C (-76°F), making them ideal for harsh environments. Their range includes non-contact proximity/limit switches and explosion-proof options suitable for oil, gas, power generation, and industrial automation applications. Euroswitch products are globally certified for hazardous areas and incorporate advanced sensing technology for reliable performance .
2. Ashcroft Ashcroft provides a variety of temperature switches, including low-temperature, explosion-proof, and NEMA-rated models. Their switches cover temperature ranges from -40°F to 750°F and are designed for OEM and industrial applications. Options include NEMA 4, NEMA 7/9, and 316L stainless steel enclosures, ensuring durability and safety in extreme conditions .
3. Irish Wholesalers
 - Meteor Electrical: One of Ireland's largest electrical wholesalers, offering over 5,000 branded products including switches, sockets, and industrial controls. They provide bulk ordering, next-day dispatch, and on-site delivery across Ireland and Northern Ireland .
