

Irish suppliers independent switch QSFP

Summary of Content

Ireland has several independent suppliers offering QSFP switches and modules, including Kocent Optec, Irish Tech Trading Limited, and ElectroDirect.

Key Suppliers

Kocent Optec is a high-tech communication enterprise serving Ireland with fiber optic solutions, including SFP+, QSFP, and QSFP-DD modules. They focus on high-speed interconnects for data centers and enterprise networks, supporting transitions from 10G to 400G and 800G, with emphasis on energy efficiency and sustainability. Irish Tech Trading Limited specializes in a wide range of optical modules, including SFP, SFP+, QSFP28/56, and QSFP-DD/OSFP. They provide OEM and ODM services, one-year warranties, and lifetime technical support, making them a reliable choice for businesses seeking customized solutions. ElectroDirect offers managed TOR fiber switches, such as the LevelOne 26-Port L3 Managed TOR Fiber Switch with 24x 1/10GbE SFP+ and 2x 40/100GbE QSFP28 ports. These switches feature hot-swap redundant power supplies and are designed for enterprise and commercial applications, providing high reliability and easy maintenance.

Considerations for Choosing a Supplier

- **Port Density and Speed:** QSFP-DD modules provide 8-lane interfaces for 400Gbps and 800Gbps speeds, ideal for high-throughput environments.
- **Support and Warranty:** Look for suppliers offering technical support and warranty coverage, such as Irish Tech Trading Limited.
- **Local Availability:** Suppliers with Irish distribution or service centers can ensure faster delivery and localized support.
