

Metal Mesh Cable Tray Models Specifications and Prices

Summary of Content

Metal mesh cable trays are available in a variety of sizes, materials, and configurations, with prices typically ranging from \$20 to \$500+ depending on dimensions and customization.

Overview of Metal Mesh Cable Trays

Metal mesh cable trays, also known as wire mesh or basket trays, are open-grid systems designed to support and organize cables while allowing airflow to prevent overheating. They are widely used in data centers, industrial plants, commercial buildings, and offshore installations. These trays can be bent, cut, or configured into curves, tees, crosses, and elevation changes on-site, making them highly versatile for complex cable routing .

Common Models and Sizes

Grainger

- Offers straight-section wire mesh trays for standard cable runs.
- Accessories include straight connectors, tees, and mounting brackets.
- Suitable for wall, overhead, or underfloor installations.
- Pricing varies by size and material; small straight sections typically start around \$30-\$50, while larger or specialized trays can exceed \$200 .
