

Micro Module Fiber Optic Box

Overview

The Optotec MicroODC is a compact and versatile splice closure designed for FTTH networks. It can be installed in underground chambers, direct buried, pole mounted, or attached to. Optotec MAX splice closures are ideal for FTTH Distribution / Local Cable to Cable splicing Distribution / Local Mid-Span Access and also Customer Drop Splicing including the integration of passive optical devices. The MAX closure system has been specifically designed for applications where space. NG4access[®] Cabled Modules available in all module sizes and fiber counts up to 864 fibers NG4access[®] Splice Tray Four sizes of interchangeable Propel fiber pass-through adapter packs provide the breadth of capabilities for virtually any configuration. Their primary function is to protect and manage the spliced fiber optic cables, ensuring they remain secure, well-organized, and unaffected by environmental factors. The Polaris-box family is the new generation of FO-boxes from R&M for a flexible fiber optic termination for indoor or outdoor applications.
