

Monaco Fiber Optic Cable Construction

Overview

Fibre optic access has arrived in Monaco. After three years of laying 210 kilometres of new network cables, Monaco Telecom, the nation's telecommunications operator, is ready to connect the entire country to high-speed digital internet access. The NAF code 2731Y covers activities relating to: manufacture of fibre optic cables. It identifies organisations carrying out this type of activity in Monaco, whether companies, independent professionals or specialised bodies. This project represents Cambodia's inaugural. The project to renovate a drinking water pipe in Monaco is characterised by the buzzword 'high speed' in two respects. Firstly, the renovation had to be completed before the start of the Formula 1 Grand Prix. Secondly, fibre optic cables for high-speed internet had to be laid in the Principality at. The project to build submarine optical fibre cable network between Sihanoukville and Hong Kong is expected to be completed in July 2025.
