

Nordic Modular Data Center IP67

Overview

Fully shielded modular enclosure with verified Faraday-grade protection, EMP-rated SPDs, and concurrent-maintainable power/cooling for sensitive workloads. NordicEPOD modular power assemblies offer a standardized, comprehensive, scalable, and sustainable approach to prefabricated modular data center power module systems in the EMEA market. Nordik DC features an advanced free-cooling system that supports various initiatives, including effective heat recovery Why Choose Nordik DC ?

At Nordik, we pride ourselves on delivering efficient and. Episode Panel: How can building for heat reuse become an economic and practical reality?

Episode Panel: When building green at scale, what type of innovation is needed?

Episode Panel: At the regional edge; how are geopolitical and macroeconomic factors affecting expansion?

A Waste (d) Opportunity:. Sweden is a frontrunner in reliable, low-cost power, leveraging a combination of locally produced hydropower and a year-round mild climate that provides natural, free ambient cooling. This makes Sweden an ideal location for cooling data centers, supporting an exceptionally low Power Usage. Modular data centers deliver adaptable, high-performance designs that meet complex infrastructure needs across diverse locations and environments. Modular solutions provide quick-to-deploy compute capacity even in remote areas.

NordicEPOD secures investment from Eaton and CTS Nordics to

Eaton invests in NordicEPOD to further its capacity to manufacture standardised power modules for the European data centre industry.

Are We Overlooking the Nordics? Europe's Silent Data

In this blog, we'll explore why the Nordics have become Europe's silent data center powerhouse, highlight major developments, and examine how

Nordics

DatacenterDynamics is the world's largest data center publication. We publish news, magazine features, and podcasts about the hyperscale & cloud,

New NordicEPOD factory opens in Norway

Data center design and build company CTS Nordics, together with Eaton, announced the opening of the new NordicEPOD factory in Oslo.

Eaton invests in data center power module firm

Power management company Eaton has invested in European data center power module firm NordicEPOD. Eaton this week announced it has

Vertiv to Deliver AI-Ready Infrastructure Solutions for

Vertiv, (NYSE: VRT) a global provider of critical digital infrastructure and continuity solutions, today announced that it has been chosen by Polar as

Nordics

We publish news, magazine features, and podcasts about the hyperscale & cloud, colocation & wholesale, artificial intelligence (AI), semiconductors, Edge computing, investment and

EcoStruxure™ Modular Data Center | Schneider Electric

A modular data center functionally provides the same purpose of a traditional, stick-built data center, but is a portable and scalable method of deploying data center

Nordic Data Centers, Fiber Networks and Industrial

Data centers designed and managed for optimal performance, speed, scalability, and flexibility, tailored to support Generative AI, HPC, and Supercomputing

Sweden data centers

Located in the Kista suburb of Stockholm, SWE01 is a Tier 3 data center situated in the largest ICT cluster in Europe. It features: A high-density infrastructure

Nordic Data Center Market Size & Share Analysis

Nordic Data Center Market Size & Share Analysis - Growth Trends And Forecast (2025 - 2031) The Nordic Data Center Market Report is

NordicEPOD secures investment from Eaton and CTS

NordicEPOD has secured a strategic commercial investment from both CTS Nordics, a dedicated data center design and build company and Eaton.

Sustainable Nordic Data Centers

atNorth is a leading Nordic data center services company offering environmentally responsible, power-efficient, cost-optimized data

Why Choose the Nordics for Your Data Center | atNorth

The Nordic region has developed into a European hub for the data center industry, with key factors for its attractiveness including reliable and abundant power

EcoStruxure™ Modular Data Center | Schneider Electric

Transforming data center design and construction, modular data centers conquer space challenges and support quick scaling in industrial environments.

Data Centers

Tier III Standard Phase 1 of the Nordik Data Centers Project (NDC1) features over 46,000 square feet of buildings ready to host and protect your data in accordance with Tier III standards from UpTime

atNorth announces heat reuse enabled mega data

Nordic colocation provider atNorth has announced plans to build its largest data center to date in the town of Ølgod in Varde, Denmark. The site, to

Refurbished Data Center Hardware – Nordic Computer

We offer refurbished hardware for data centers, including servers, storage, and networks as well as batteries, spare parts, upgrades, or complete systems.

Are We Overlooking the Nordics? Europe's Silent Data

The Nordic region—Denmark, Sweden, Norway, Finland, and Iceland—is becoming a global leader in data center sustainability and efficiency.

NordicEPOD modular power assembly | Modular Data Center | Eaton

NordicEPOD modular power assemblies offer a standardized, comprehensive, scalable, and sustainable approach to prefabricated modular data center power module systems in the EMEA market.

New NordicEPOD factory opens to boost production of

Eaton and CTS Nordics have officially opened the new NordicEPOD factory in Oslo, marking a significant advancement in data center construction.

Top 10: Modular Data Centre Companies | Data Centre

Here we highlight the top 10 companies leading the modular data centre revolution, ranked by market leadership, innovation, global scale and

Let's establish sustainable data centres of the future

At COWI, we provide end-to-end consulting when you need to establish a data centre in the Nordic region. Our experience, local knowledge and in-depth

Custom Modular Data Centers for Edge & AI | ModulEdge

Modular data centers are built in controlled factory conditions, fully tested before shipment, and deploy in months, not years. You get predictable performance, step-by-step scalability, and on-premise control

The Nordics: a leading sustainable data centre destination

The Nordics - a perfect data centre location choice? "We focus on the Nordics because of the characteristics that the Nordics offer for co-location or

Discover NordicEPOD | Prefabricated Modular Data Centers | Eaton

NordicEPOD's modular data center systems were born to meet this challenge, delivering scalable power infrastructure through a repeatable, modular platform. These prefabricated systems unite critical

Northern Data increases data center footprint in the

Northern Data acquires a data center facility in Northern Sweden to meet massive customer demand. The site currently consists of six data center

Nordic Data Centers, Fiber Networks and Industrial

Bulk is Norway's leader in building and operating sustainable digital infrastructure, data center, colocation, fiber networks, and industrial real estate.

Prefabricated modular solutions

Modular data centers assure scalability for future expansions, embody repeatable designs, and exhibit superior quality via factory control. This simplified assembly

NordicEPOD modular power assembly | Modular Data

Learn how NordicEPOD modular power assemblies, powered by Eaton, will enable you to add data center capacity faster while reducing costs and risk with
