

Norway Optical Cable Line Contracting

Overview

On December 18, 2025, Space Norway AS awarded Nexans Norway AS the contract to develop and manufacture an advanced double-armoured subsea fibre-optic cable with 96 fibers for their Bodo-Fauske link spanning approximately 45 km in length. Engineering, Logistics and Transport, PLGR and Route Clearance, Cable Crossings and Jointing and testing. Lump sum contract for: Installation and simultaneous burial of a 200 km. Cecon Contracting has a clear vision to stay “Lean and Nimble”, focusing on delivering projects at a lower cost and a shorter overall lead time than the typical “Tier 1” Contractors. Scope of work included ROV survey and recovery of the. We are proud to announce that we have received official approval of our climate targets from the Science Based Targets initiative (SBTi). Nexans Norway AS accomplished significant achievements in December 2025 with the hull launch of Nexans Electra at Ulstein Verft and Space Norway awarding them with a contract for Bodo-Fauske link fibre-optic cable installation work. The cable, which is being produced locally in Rognan, will be collected there and installed along the Bodø-Fauske route by Seaworks Kabel AS. The objective is to complete the.
