

OPGW optical cable manufacturer in the Bahamas

Overview

APAR designs and manufactures OPGW cables using advanced stranding technology, precision fiber integration processes, and stringent quality control systems. OPGW is primarily used by the electric utility industry, placed in the secure topmost position of the transmission line where it “shields” the all-important conductors from lightning while providing a telecommunications path for internal as well as third party communications. Optical Ground Wire is. Top suppliers of OPGW optical fiber cables include General Cable, Southwire, Belden Inc. These companies are renowned for their engineering expertise, innovative product lines, and commitment to reliable, high-performance solutions in demanding transmission environments. Application OPGW is mainly applied in communication line of newly constructed high voltage transmit electricity system with 35 KV or above, or replacement of existing ground wire of previous overhead high voltage transmit electricity system. development of communities. With this in mind, we provide major global organisations in multiple industries with best-in-class products and services, based on installation and operation.
