

One-fiber-four-electrical-network switch

Overview

This managed switch comes with Ethernet TCP/IP protocol. It comes with 4 copper cable transmission ports and 1 port for single-mode fiber optic. It provides simple and complex connectivity for multiple Ethernet device, network management, enhanced cyber security and. This review focuses on a gigabit ethernet switch (one optical, four electrical ports) combined with a single-mode fiber optic transceiver, emphasizing long-distance fiber transmission, power over ethernet (poe) for multiple devices, and flexible expansion capabilities Suitable for multi-room home. This managed switch comes with Ethernet TCP/IP protocol. Its fanless design and. This TCP/IP unmanaged switch has 100BASE-FX ports for fibre optic and four 10BASE-T/100BASE-TX ports for copper cable. It can support dual DC power input and DIN rail mounting. With plug-and-play setup and.
