

Original optical fiber cable reel

Overview

This reel keeps optical fibers safe. The 250µm buffer protects each strand. It prevents kinks exceeding the 30mm minimum bend radius. The hub design prevents. OCC's Modular Advanced Reel System (MARS ®), the industry's first lightweight cable deployment reel system, is designed specifically for the demanding needs of harsh-environment fiber optic installations. These products are designed to be mobile, durable, and essential networking components. What is more, Fiber Optic Cable. Fibre optic cable reels with different barrel diameters and winding widths. The barrel is coated with PE foam Do you have any questions?

Our quality management system has been ISO 9001-certified since 1997, and our environmental management system has been ISO 14001-certified since 1999. version) - Torque range between 5000 and 10000 Nm - High-performance slip rings for up to 24 kV/500 A - Optional TFO fiber optic technology for robust high-speed data transmission - Suitable for harsh environments. buses up to 12 Mbps - USR030 “gold-on-gold” slip rings for up to 2 x CAT6.
