

Philippine Fiber Distribution Box 24 Cores

Summary of Content

A 24-core fiber optic distribution box in the Philippines is a versatile, IP65-rated enclosure designed for indoor and outdoor FTTH/FTTX applications, supporting splicing, splitting, and distribution of fiber cables.

Key Features

- **Capacity:** Supports up to 24 fiber cores, with some models capable of splicing up to 72 cores in total .
- **Material & Protection:** Made from reinforced ABS or ABS+ material, providing durability and resistance to water, dust, and environmental stress (IP65 rating), .
- **Design:** Includes dedicated paths for feeder cables, drop cables, pigtails, and patch cords to prevent tangling and interference. Cassette-style SC adapters and sliding adapter holders simplify installation and maintenance .
- **Installation Options:** Suitable for wall-mounted, pole-mounted, or aerial installations, adaptable for both indoor and outdoor environments .
- **Cable Compatibility:** Supports 5-10mm cable ports, 2x3mm indoor FTTH drop cables, and outdoor figure-8 FTTH self-supporting drop cables .
- **Functionality:** Integrates fiber splicing, splitting, distribution, storage, and cable management in one unit. Horizontal mechanical sealing and advanced internal structure enhance protection and efficiency .
- **Compliance:** Many models are RoHS and REACH compliant, ensuring safety and environmental standards .
