

Plastic distribution box control box

Overview

Plastic Distribution Box is widely used in control cabinets, electrical cabinets, and telecommunication signal cabinets. It measures 180 x 240 x 120 mm and comes in light grey (RAL 7035) Optimally insulated: The distribution box is made of halogen-free ABS (acrylonitrile. Plastic distribution boards are widely used in the family, high buildings, houses, stations, ports, airports, commercial houses, hospitals, cinemas, enterprises, and so on occasions. IP65 and IP66 rated for waterproof durability. Perfect for household and outdoor use. The groove contours of electronic distribution boxes and the very narrow grooves of micro-distribution housings are seamlessly sealed with the sealing foams of the polyurethane-based FERMAPOR K31 or the silicone-based FERMASIL product families. Designed for flexibility and safety, these enclosures offer a reliable housing for a wide range of modular devices, ensuring.
