

PoE Switch Monitoring Box

Overview

Our enclosure includes a managed PoE switch, splice tray, power supply, & DIN-rail for mounting accessories. Automatically monitors and restarts unresponsive devices, eliminating the need for onsite, manual rebooting - Effectively saving you time and labor costs. Featuring up to four Gigabit Power over Ethernet ports and two uplink ports, it is the ideal all-in-one device for a large number. This is indoor/outdoor PoE Switch Cabinet with 10-Port industrial switch, Optical Fiber Tray, power supply, Surge Protector, Air Breaker and a Smart Fan, all in a single secure cabinet enclosure. Wide range of working environment temperature, high protection level and other technologies, it. X-SPSB01 is a cutting-edge outdoor smart solar-powered control box designed to deliver reliable, sustainable, and autonomous power and connectivity solutions for remote or off-grid applications. Equipped with up to 4 gigabit PoE ports that provide from 15W up to 90W output per port. IP65 Protection Level: The IP65 protection level ensures that the enclosure is dust-tight and protected against water jets, making it suitable for harsh outdoor environments. Stainless Steel 304 316: Constructed from high-quality stainless steel 304 or 316, the enclosure offers excellent corrosion.
