

Price of Armenian-specific cable trays

Summary of Content

The price of cable trays in Armenia varies widely depending on material, size, and customization, typically ranging from \$15 to \$150 per meter for standard wire mesh or metal trays.

Overview of Cable Tray Options in Armenia

In Armenia, cable trays are available in wire mesh, metal, and custom configurations. Wire mesh trays are popular for their durability, ventilation, and ease of installation, while solid metal trays provide additional protection for cables in industrial settings. Standard sizes and materials influence the cost significantly.

Price Factors

- **Material:** Galvanized steel, stainless steel, and aluminum trays differ in price. Stainless steel is more expensive due to corrosion resistance.
- **Size and Load Capacity:** Wider trays or those designed to carry heavier loads cost more.
- **Customization:** Armenian suppliers offer custom shapes, lengths, and perforation patterns, which can increase the price.
- **Supplier and Brand:** Local suppliers like Solara and Wire Meshes provide competitive pricing, while imported brands may be higher due to shipping and import duties.

Supplier Options

- **Solara:** Offers a range of durable cable trays suitable for residential and industrial use, with options for different sizes and materials.
