

Price of cable trays for cable conduits

Summary of Content

Cable trays generally cost between \$2 and \$25 per meter depending on material and type, while conduits are typically more expensive due to labor-intensive installation.

Cable Tray Pricing

Cable tray prices vary widely based on material, type, size, and finish. Common price ranges include:

- Galvanized steel trays: \$2-\$15 per meter, balancing durability and cost .
- Stainless steel trays: Higher cost, typically \$10-\$25 per meter, offering corrosion resistance .
- Aluminum trays: Lightweight and rust-proof, generally more expensive than steel but easier to handle and transport .
- Plastic trays: Budget-friendly, suitable for light loads, usually at the lower end of the price spectrum . Tray types also affect cost:
- Ladder trays: Strong support for heavy cables, higher price .
- Wire mesh or basket trays: Cheaper, ideal for lightweight or data cables, easy to cut and install .
- Perforated trays: Slightly cheaper than ladder trays, still suitable for moderate loads . Bulk orders or B2B purchases can significantly reduce per-unit costs, sometimes below \$1 per meter for large industrial projects . Installation efficiency also impacts total cost, as cable trays are faster to install than conduits, saving labor expenses .
