

Price of installing a home electrical distribution box

Summary of Content

The typical cost for installing a residential electrical distribution box ranges from \$450 to \$1,500, depending on box type, amperage, labor, and regional factors.

Cost Breakdown

Material Costs:

- Standard single-gang or small residential boxes: \$25–\$200 for the box itself, with plastic boxes being the cheapest and metal or weatherproof boxes costing more .
- Full panel boxes for typical 100–125 amp service: \$150–\$1,000 depending on amperage, number of circuits, and features .

Labor Costs:

- Installation labor typically ranges from \$75 to \$300 for simple replacements, but more complex installations or upgrades can increase labor costs significantly .
- Labor rates vary by region, with urban and coastal areas generally higher than rural or Midwest locations .

Additional Costs:

- Permits and inspection fees may add \$50–\$200 depending on local regulations .
- Upgrades such as new wiring, additional conduits, or higher-capacity breakers can increase total costs .

Typical Total Costs

- Basic replacement of a small indoor box: \$125–\$320 total, including labor and materials .
