

Price per unit of fiber optic cable for smart buildings in Qatar

Summary of Content

Fiber optic cable prices in Qatar range from approximately 1 AED per meter for basic indoor 4-core cables to higher premiums for specialized, high-core-count or armored cables.

Typical Pricing

- Indoor 4-core fiber optic cable: Around 1 AED per meter for standard LSZH flat drop cables suitable for FTTH and smart building applications in Doha .
- Single-mode and multimode cables: Prices vary depending on core count, fiber type (OS1/OS2 for single-mode, OM3/OM4/OM5 for multimode), and jacket material. Standard 2-48 core cables are widely available, with higher-core-count cables (96 cores and above) commanding 10-15% price premiums due to advanced performance features .
- Outdoor or armored cables: Cables designed for harsh environments, including armored, PE-jacketed, or ADSS types, are priced higher due to durability and compliance with Qatar's climate and safety standards .

Factors Affecting Price

- Core Count and Fiber Type: Higher core counts and bend-insensitive fibers (G.657.A2 standard) increase cost.
- Cable Jacket and Coating: LSZH, fire-retardant, and armored cables are more expensive than standard PVC jackets.
