

Quotation for QSFP optical module

QSFP28

Summary of Content

QSFP28 modules in 2026 typically range from \$35 for short-reach third-party models to \$280 for standard LR4 modules, with OEM prices potentially higher.

Pricing Overview

QSFP28 optical modules, used for 100 Gigabit Ethernet connectivity, have a wide price range depending on reach, vendor, and brand. Common market prices in 2026 include:

- Short-reach (SR4) third-party modules: around \$35 each, offering 100G over short distances with low cost per Gbps .
- Long-reach (LR4) modules: approximately \$280 each for standard 10km single-mode fiber modules .
- OEM modules: can reach several thousand dollars per module, mainly due to branding, warranty, and platform coding rather than optical performance .

Vendor Options

Several suppliers provide QSFP28 modules with varying specifications and delivery options:

- FS: Offers a portfolio of 100G QSFP28 modules for data centers, enterprise networks, and service providers, with nearby warehouse shipping and 30-day free returns .
