

Rain Distribution Box

Overview

(1) Waterproof distribution box engineered for harsh outdoor and industrial environments, providing IP65–IP68 sealing against dust, rain, and UV. (3). The HA Series Waterproof Power Distribution Box (IP65) is a premium electrical solution meticulously designed by GEYA for engineering applications. Crafted with advanced materials and innovative structures, it delivers reliable and stable performance in harsh environments, including humid, dusty. Available in 12" and 20" Widths The most versatile box on the market today. Choose from 5 heights to set your inlets and outlets on each side. It also comes complete with the only seal on the market that accepts 2", 3", 4" smooth wall and corrugated pipe. Excellent performance on waterproof! The casing is made from anti-UV ABS and PC. It is durable enough for long time outdoor use. Our steel din rail box and din rail power distribution box are IP65 engineering grade waterproof, effectively blocking splashing water, rain, dust, snow, oil, UV rays and more Daily. An outdoor electrical distribution box serves as the critical junction point where incoming power lines are split into multiple branch circuits for outdoor installations, parking lots, building exteriors, and industrial facilities. Unlike standard junction boxes, these distribution systems must.
