

Safe and Reliable Intelligent Power Distribution Cabinet

Overview

Designed for high-density applications such as AI workloads, this power conditioning and distribution cabinet delivers the performance and reliability of a custom-engineered system with the efficiency and cost-effectiveness of a pre-packaged, factory-tested solution. XL-21 Power Distribution Cabinet Product Overview The XL-21 Power Distribution Cabinet is a high-performance Distribution Cabinet designed for power distribution systems with AC voltage of 550V and below, supporting three-phase three-wire. Provide economic, safe, intelligent, and convenient electricity solutions for industrial and commercial users. This cabinet integrates components such as circuit breakers, transformers, and monitoring devices to safely and reliably manage power distribution across different. Juhonkia is an intelligent power distribution manufacturer providing reliable power distribution equipment for data centers, industrial facilities, commercial buildings, communication rooms, infrastructure projects, and critical power systems. These comprehensive units serve as centralized hubs that receive incoming.
