

Small square fiber optic flange

Overview

This square FC bare fiber adapter is used as a medium to connect bare fiber to your fiber optic equipment. By linking two connectors precisely, fibre optic adapters allow the light sources to be transmitted at most and. This standard footprint adapter with full flange or no flange offers a quick and easy solution to extend an existing piece of fiber optic cabling and is built with high-grade casing materials for durability and longevity. 75" (DN40) and KF40 flanged systems. These feedthroughs allow for optical coupling into ultra-high-vacuum (UHV) systems using SMA905-terminated fiber patch cables and mating sleeves.
