

Stainless Steel Cable Tray Price Reference

Summary of Content

Stainless steel cable trays typically range from \$10 to \$25 per meter, depending on material grade, type, size, and finish.

Price Overview

The cost of stainless steel cable trays varies significantly based on material grade (304 or 316 stainless steel), tray type (ladder, perforated, or solid bottom), width, depth, and surface finish (satin, polished, or coated) . Standard widths range from 50mm to 900mm, with depth variations to accommodate different cable loads . Ladder-type trays generally cost more due to higher material usage and load-bearing capacity, while perforated or wire mesh trays are more economical .

Typical Price Range

- Per meter cost: \$10–\$25 for stainless steel, with 316-grade trays at the higher end due to superior corrosion resistance .
- Bulk orders: Prices can be lower per meter when purchased in large quantities or through long-term supply agreements .
- Regional variations: Costs may differ based on local supplier availability, shipping, and installation conditions .

Factors Affecting Price

- Material: 316 stainless steel is more expensive than 304 due to higher corrosion resistance .
