

Suriname Fireproof Cable Tray Price List

Summary of Content

Fireproof or flame-retardant cable trays in Suriname typically range from approximately \$20 to \$150 per standard 2.4-meter section, depending on material, type, and specifications.

Price Range and Factors

The cost of fireproof cable trays varies based on several factors:

- **Material:** Steel, aluminum, or FRP (fiber-reinforced plastic) fireproof trays have different price points. Hot-dip galvanized steel ladder-type trays are commonly used and priced per standard 2.4-meter length. FRP or PVC flame-retardant trays may cost more due to enhanced fire resistance and durability .
- **Type:** Ladder-type, perforated, and channel-type trays differ in cost. Ladder-type trays are widely used for high-capacity cable management and are often priced between \$20 and \$80 per section, while specialized FRP or flame-retardant trays can reach \$100-\$150 per section .
- **Dimensions:** Width, height, and thickness affect pricing. Wider or thicker trays designed for heavy-duty applications are more expensive .
- **Accessories:** Couplers, bends, and mounting hardware are sold separately and can add \$5-\$30 per piece depending on size and material .

Suppliers and Availability

Several suppliers in Suriname offer fireproof cable trays:

- Local distributors provide standard and custom trays with flame-retardant properties suitable for commercial and industrial installations .
